Post Office Department, Sept. 1, 1846.

The Postmaster General gives public notice to postmasters and others, that an opportunity of sending letters, newspapers, and other mail matter to Gregon, and to citizens of the United States at the Sandwich islands, will shortly occur by means of public vessels to be despatched from the port of New York around Cape Horn, and up the Pacific coast, free of any charge for the transmission in those vessels—the matter to be forwarded by other opportunities from their place of debarkation. Letters, newspapers, &c., deposited in the post office of New York, if the postage of one cent on each package be prepaid, and like matter forwarded to New York from any other post office, if inland postage to New York be prepaid thereon, will be duly made up and forwarded under charge of the captain of the vessel conveying the same. It is advised that correspondence to persons in Oregon be addressed to, or to the care of, Mr. A. E. Wilson, merchant, Astoria, Oregon; and that those who desire to avail themselves of this chance of transmission lose no time in embracing the opportunity. The rupture pad (glass) has a double motion: first, by revolving on its own axis; second, by the lever to which it is attached, and where said lever is connected to the main spring. The superiority which this truss has over others is obvious in this, that it is must effectual in retaining the parts in their proper place, and maintaining the parts in their proper place. others is obvious in this, that it is most effectual in retaining the parts in their proper place, and making due pressure; it is always clean; its shape or form is durable, which in stuffed pads is not the case, (as they become saturated with the fluids from the body.) The umbilical truss is unaurpassed, being so adapted as to remain perfectly secure where applied.

As a proof of its efficacy of the great number that has been vended, not one of the owners has been dissatisfied, but have spoken in the most commendable terms of it.

CERTIFICATES

Mr. Vaughan, proprietor of the rose sintment, observing my face, insisted on my trying his preparation, of which he handed me a jar. Although, in common with the members of my profession, I discountenance and disapprove of the numerous nostrums palmed upon the public by ignorant pretenders, I feel in justice bound to except the rose ointment from that class of medicines, and to give it my approbation, as it entirely cured the eruption, although it had resisted the usual applications.

CITY Infirmary and Dispensary.—The directors of this institution take great pleasure in announcing to its patrons and friends, that it has undergone many material alterations and improvements calculated to add to the comforts of the patients. The infirmary has been divided in such manner as to separate the several classes of patients, viz: white and colored, male and female; and, from its position and regulations, proffers retirement and privacy as far a can be wished.

Two resident physicians are in constant attendance, and the infirmary is visited daily at 11 o'clock, a. m., by the attending physician and surgeon, who also devote as much time as is necessary for prescriptions, operations, and dispensing of medicines for all such dispensary patients as may be in waiting. Besides these attendants, the directors have been fortunate in securing the services of the SISTERS OF CHARITY, who reside in the infirmary, conduct its affairs, and give their undivided attention to the nursing and comforts of the sick.

Private patients may enter the infirmary under the special care of any one of its directors, but otherwise will comply with the regulations of the institution.

In consequence of the heavy expenses incurred by

Medical men of eminence commend in the highest terms the preparation known as Tarrant's Effervescent Seltzer Aperient. Its success is billous affections, dyspepsia or indigestion, heartburn, febrile disorders, gout, acidity of the stomach, &c., and all the various complaints caused by the sudden changes of temperature so usual in warm latitudes, has been so great that it has been highly recommended, and has, in consequence, been generally prescribed; and the most satisfactory results have invariably followed. In a torpid state of the liver its action upon the system has been so beneficial that its energies have been revived and its healthy tone restored.

No preparation has ever been introduced to the notice of the medical profession or public which has given such universal satisfaction as Tarrant's Effervescent Seltzer Aperient. It should be freely used at this season as a preventative and dispeller of those sick headaches, languor of the body, loss of appetite,
